EDUCATION

University of Ibadan

Bachelor of Science in Computer Science, Minor in Mathematics

Ibadan, NG

July. 2019 – March 2024

Havard CS50

Introduction to Computer Science

Remote

Aug. 2022

EXPERIENCE

Frontend Developer

Solace Imaging

Jan 2024 – Present

Calgary Alberta, CA

- Facilitated regular team meetings to discuss progress, address challenges, and brainstorm innovative solutions, fostering a collaborative and supportive work environment.
- Participated in design reviews and provided valuable insights and recommendations to enhance user experience and optimize frontend performance.
- Implemented efficient data exchange between frontend and backend systems, leveraging RESTful APIs and other technologies to enable seamless integration and data flow.
- Optimized website performance through techniques such as code splitting, lazy loading, and image optimization, resulting in faster page load times and improved user satisfaction.

Front-End Developer

Carbon Businesses (Vella Finance)

Sep 2023 – Present

Delaware, US

- Employed advanced backend APIs to seamlessly integrate and execute features such as Flex Savings, Fixed Savings, and Target Savings, enhancing the functionality of the system.
- Integrated data visualization libraries such as D3.js or Chart.js to present complex data sets in an intuitive and interactive manner, enhancing user engagement and data comprehension.
- Conducted usability testing and optimization to refine dashboard layouts and interactions, iterating based on user feedback to improve usability and satisfaction.
- Utilized industry best practices to optimize website accessibility for users with disabilities, ensuring compliance with WCAG guidelines and enhancing inclusivity.

Junior Front-End Developer

MaiTech Studios

Mar 2022 – Feb 2024

Lekki, NG

- Collaborated closely with a multidisciplinary team of frontend developers to architect, develop, and deploy a comprehensive e-commerce platform.
- Utilized media queries and flexible grid systems to optimize dashboard layouts for various screen sizes and devices, enhancing accessibility and usability.
- Implemented Redux middleware and selectors to efficiently handle asynchronous actions, such as data fetching and form submissions, enhancing application performance and responsiveness.
- Integrated with backend RESTful APIs using Prisma ORM to interact with the database layer, enabling seamless data retrieval and manipulation from the frontend application.

Front-End Developer

Odigital Agency

Aug 2020 – Jan 2022

Surulere, NG

- Promoted to *Frontend Lead*, overseeing and coordinating frontend development projects.
- Developed a user-friendly UI for Agofure, a prominent logistics company, streamlining operations and improving customer satisfaction by 25%.
- Managed frontend operations for the company's software, reducing bug count by 20% through rigorous testing and maintenance strategies.
- Frontend Intern**
 - Developed a comprehensive e-commerce website for an agency client using WordPress, enhancing user experience and driving a 15% increase in sales.
 - Designed and implemented a visually appealing finance agency landing page using HTML, CSS, and JavaScript, resulting in a 20% rise in user engagement.
 - Revamped the company's website with HTML, CSS, Bootstrap, jQuery, and JavaScript, improving performance metrics by 30% and attracting 25% more traffic.

VOLUNTEERING

Administrative Assistant

January 2022 – Present

Rhema bible training college - Kainos

University of Ibadan, NG

- Led a team of administrative assistants in managing tasks for a class session, ensuring smooth operations and efficient workflow.
- Designed and implemented Google Forms to gather student feedback after class sessions, facilitating continuous improvement.

Mozilla Hubs Facilitator for The Innovation girls (IVG) training

Sep 2023 – Jan 2024

IMISI 3D

Montgomery, NG

- Utilized Mozilla Hubs to create and lead engaging virtual training sessions for The Innovation Girls (IVG) program, fostering a collaborative and immersive learning environment.

PROJECTS

Doku code | *React, Typescript, Redux, ESLint, Docker*

Jan 2024

Synapse.AI(BETA) | *React, Nodejs, OpenAI, Git*

Mar 2023

TECHNICAL SKILLS

Languages: Golang, Python, C/C++, SQL (Postgres), JavaScript, HTML/CSS

Frameworks: NextJS, React, Node.js, TailwindCSS, Cypress, Material-UI, Redux/Redux Toolkit

Developer Tools: Git, Docker, TravisCI, Google Cloud Platform, VS Code
